#### HUNTING SEASON

I have heard that a lot of people had a successful deer season and some had a very successful season. I've seen pictures and there have been some impressive deer harvested. I, myself, had a successful deer hunt in Kansas but I learned the hard way that I can no longer leap tall buildings nor even narrow ditches. And that's why you see me limping around. I'm just getting older and slowing down (a little).

**NICS CHECKS**

The ATF/FBI has made some changes regarding the use of Concealed Carry Permits in lieu of a NICS background checks. To make it short, ALL firearms purchases through an FFL dealer MUST have a NICS background check! All non-FFL dealer transaction rules will remain as before.

**RIFLE RANGE**

The Rifle Range rules are posted at the rifle range. Please read them and adhere to them.

The target boards get heavily damaged by constant normal use. We try to keep them in good repair, but we need more help. If you are willing to assist, please contact a club officer.

Please put your target **BELOW THE RED BOARD.**

If you want to pattern your shotgun, please use the pattern board located at the east side of the trap range.

No shotguns on the rifle/pistol range except for slug guns.

If there are other shooters at the rifle range, please try to be courteous to them, i.e. give them the opportunity to set out targets or change targets, don't let your brass fly in front of the other shooters. You don't want to have someone 's brass flying in front of your face, hitting you or worse yet having a hot semi-auto round go down your neck. So, please, don't do it to others.

**ALSO, THIS IS NOT A TACTICAL SHOOTING RANGE! DO ALL YOUR SHOOTING FROM THE CONCRETE PADS.**

We recently found some cans in the trash that had been used for target practice. **DO NOT SHOOT AT JUNK!!!!**

If you must drive to the 100 and 200 yard backstops, watch out for the SOFT sand. The sand is very soft and fine in front of both 100 and 200 yard backstops. Proceed with caution unless you want to call a tow truck in addition to cleaning up your mess.

Empty beer cans were found in the trash at the rifle range. **REMEMBER NO ALCOHOLIC BEVERAGES ON ANY OF THE RANGES.** If this was just your trash, please find someplace else to dispose of it. It doesn't look good in the range trash and looks like an invitation to drink booze on the range.

**DON'T BE PIGS. PICK UP YOUR TRASH!!!**

#### Seven Yard Outdoor Pistol Range

After looking at the seven yard range, I wonder why some people actually have a handgun. Come on folks, this is SEVEN YARDS, 21 FEET!!! If you can't hit a 15/16 inch square at this distance, you should find some other kind of self defense. The person you may be shooting at to defend yourself will probably be the safest person around. I know that you have to practice and hone your shooting skills but I see that the upright posts and 2X4 holding the target boards are literally shot to pieces.

Take your time, enjoy your practice but PLEASE try not to destroy your range.

#### FUTURE NEWSLETTERS

All future newsletters will be on the new website [Quakezik@gmail.com](mailto:Quakezik@gmail.com)

#### SKEET AND TRAP

Before shooting skeet or trap, please check at the club house to make sure that no one is waiting to go out and shoot.

Also, please refill the machines when you are done shooting.

#### POKER SHOOT

We are now having a poker shoot at the pistol range. This sounds like a lot of fun and the only skill necessary is that you be able to hit the backstop. Anyone can win. Rules are posted at the club.
